FRESH ENTERTAINMENT PROGRAM

The Fresh Recording Studio exists as a safe and relaxed space for young people to express themselves creatively and learn skills in audio production.

The studio program creates partnerships between young musicians to be paired with an Audio Engineer mentor to produce tracks in the Fresh Entertainment recording studio. Some of these tracks are featured on Fresh's annual compilation album and performed live at the album launch event.

FReeZA Frankston are grateful for the Volunteer Audio Engineers who make studio projects possible for young people in our community. Volunteer hours are flexible and volunteers have access to studio facilities. Volunteer audio engineers and music producers are trained, resourced and supported by FReeZA facilitators so that they can develop their own initiatives and projects at the recording studio with young local musicians and performers. Volunteers must be 18+ years old and are subject to an application and interview process.
