Matters considered

Title/heading of Item	Brief highlights of the matter discussed	Declaration of Conflict of Interest, if any
Welcome	Acknowledgment to Country Apologies - three committee members and a Council officer Acceptance of previous minutes Conflicts of Interest declaration - none	
Welcome to new members	Introductions between existing and new committee members	
Coastal Resilience project	Stage 2 vision for the adaptation planning was workshopped with the committee. Top 2 choices were voted as draft vision 1 and 4 with a deciding vote formalising the vision to be in Stage 2 to be: <i>"A Coast for All"</i> <i>Frankston City's coast is a resilient, inclusive space where natural, cultural, and community values are preserved and enhanced through sustainable evidence-based practices, ensuring that future generations can live, work, and play in a vibrant coastal environment through 2100 and beyond.</i>	

	<p>Stage 3 hazard extents were presented to the committee for coastal inundation along the Kananook Creek interface to discuss varied modelling approaches between coastal inundation-only modelling used in the coastal hazard mapping and the catchment flood modelling being undertaken by Melbourne Water and Council (as per https://engage.frankston.vic.gov.au/planning-floods-and-coastal-hazards)</p> <p>Approaches to data visualisation and model output communication were discussed with and among the committee to inform Stage 3 reporting, community engagement and education approaches.</p>	
Olivers Hill geology and geomorphology	The committee were given a high-level summary of the new draft geomorphological report by Neville Rosengren that underpins Stage 3 coastal hazard mapping.	
Council update	<ul style="list-style-type: none"> • CMMP was approved by the minister and gazetted • Beach renourishment at Frankston Yacht Club was not a success story with the sand being washed back out within a couple of days • VFA changes • Update on DEECA Seafloor Integrity project (https://www.marineandcoasts.vic.gov.au/port-phillip-bay-emp/habitats-and-marine-life/seafloor-integrity-and-status) 	
General business	<p>Cr Green's NOM Gross pollutant traps (GPT) suitability and installation options.</p> <p>Cr Hill's NOM requesting a Council report on dredging at the mouth of Kananook Crk coming to Council meeting in September.</p> <p><i>GPT study and Dredging review to be presented to FAC at next meeting</i></p>	
Next Meeting date:	July 2025
