11.1 Planning Permit Application 166/2017/P - 46 Screen Street, Frankston - To construct four (4) single storey dwellings

(MP Community Development)

**Council Decision**

Moved: Councillor Cunial  
Seconded: Councillor O'Reilly

That Council resolves to issue a Notice of Decision to Grant a Planning Permit in respect to Planning Permit Application number 166/2017/P for the construction of four (4) single storey dwellings at 46 Screen Street, Frankston, subject to the following conditions:

**Plans**

1. Before the development starts, amended plans to the satisfaction of the Responsible Authority must be submitted to and approved by the Responsible Authority. When approved, the plans will be endorsed and will then form part of the permit. The plans must be drawn to scale with dimensions and three copies must be provided. The plans must be substantially in accordance with the plans submitted with the application (or some other specified plan) but modified to show:

   (a) The crossover and the part of the driveway at the front of the site reduced to 3 metres in width and the provision of further landscaping.

   (b) The clothes line and paving steps of dwelling 4 relocated to the west to allow for the provision of a canopy tree in the north-eastern corner and the paving steps of dwelling 3 relocated further south towards the dwelling to allow for the provision of a canopy tree.

   (c) Fence heights to be shown on the elevations to ensure that no overlooking would occur to comply with Standard B22.

   (d) Pedestrian sight splay shown for the northern and southern side of the proposed access way in accordance with Design Standard 1 of Clause 52.06-9 of the Frankston Planning Scheme.

   (e) Modifications to the landscaping on the southern side of the access way to achieve adequate vehicle manoeuvrability from the western car space of dwelling 2 garage and modifications to the landscaping on the western side of the access way to achieve adequate vehicle manoeuvrability from the western car space of dwelling 4 garage.

   (f) All trees growing on the site and on the adjoining properties within 3m of the boundaries must be clearly illustrated on all relevant plans to demonstrate canopy width, trunk location and clearly labelled in accordance with the Tree Assessment Report prepared by Adam Hamilton dated January 2018 and clearly state whether the tree is to be retained or removed.

   (g) The Tree Protection Zone and Structural Root Zone for all trees to be retained and the tree protection fence locations must be illustrated on all relevant plans.

   (h) Tree protection conditions noted in accordance with Conditions 4, 5, 6, 7, 8 and 9.

   (i) A Landscape Plan in accordance with Condition 11.

   (j) A Tree Protection Plan in accordance with Condition 3.
(k) Notation on all relevant plans that dwelling 3’s paved area is to be constructed in accordance with Condition 10.

**No Alterations**

2. The development as shown on the endorsed plans must not be altered without the prior written consent of the Responsible Authority.

**Tree Protection Management Plan**

3. A Tree Protection Management Plan prepared in accordance with Frankston City Council’s ‘Arboricultural Report Writing Guide’ must be submitted by a suitably qualified and experienced Arborist in relation to the management and maintenance of the trees, and must be approved by the Responsible Authority prior to the commencement of any works (including any demolition, levelling of the site, excavations, tree removal, delivery of building/construction materials and/or temporary buildings). The Tree Management Plan must make specific recommendations in accordance with the Australian Standard AS4970: 2009 - Protection of Trees on Development Sites and detail the following (where relevant) ensuring that the trees remain healthy and viable during and following construction:

   (a) A site plan showing tree protection zones (TPZ) and structural root zones (SRZ), tree protection fence locations (any relocations required) and any areas where ground protection systems will be used;

   (b) Restricted activities in the TPZ;

   (c) Key supervision and monitoring stages of the development including pre-demolition, pre-construction, and post construction stages;

   (d) Details of any TPZ encroachments including :

      a. Details of exploratory root investigation
      b. Alternative construction techniques
      c. Root pruning
      d. Supervision
      e. Details of any root pruning

   (e) Methods for installation of services e.g.; sewerage, storm water, telecommunications, electricity etc;

   (f) Remedial works as required including a detailed photographic diagram specifying what pruning will occur;

   (g) Final Certification of Tree protection template. The Final Certification Report Template as required in the Tree Protection Management Plan must be completed and submitted to the satisfaction of the Responsible Authority before the occupation of the development and/or commencement of the use or at such later date as is approved by the Responsible Authority in writing.

**Tree Protection**

4. Tree protection must be carried out in accordance with the Australian Standard AS 4970-2009 Protection of trees on development sites to the satisfaction of the Responsible Authority.
5. Prior to the commencement of the development (including vegetation removal), a Tree Protection Fence defined by a 1.8 metre high (minimum) temporary fence constructed using steel or timber posts fixed in the ground or to a concrete pad, with the fence’s panels to be constructed of cyclone mesh wire or similar strong metal mesh or netting with a high visibility plastic hazard tape, must be installed at a radius of 9.6m (tree 2) and 3m (street tree) from the trunk numbered to the satisfaction of the Responsible Authority. A fixed sign is to be provided on all visible sides of the Tree Preservation Fencing, stating “Tree Preservation Zone – No entry without permission from Frankston City Council”.

The requirements below must be observed within this area –

a) Coarse mulch laid to a depth of 50-100 mm (excluding street trees).
b) No vehicular or pedestrian access.
c) The existing soil level must not be altered either by fill or excavation.
d) The soil must not be compacted or the soil’s drainage changed.
e) No fuels, oils, chemicals, poisons, rubbish or other materials harmful to trees are to be disposed of or stored.
f) No storage of equipment, machinery or material is to occur.
g) Open trenching to lay underground services e.g.: drainage, water, gas, etc. must not be used unless approved by the Responsible authority to tunnel beneath.
h) Nothing whatsoever, including temporary services wires, nails, screws or any other fixing device, is to be attached to any tree.
i) Tree roots must not be severed or injured.
j) Machinery must not be used to remove any existing concrete, bricks or other materials.

The tree protection fence must remain in place for the duration of building and works to the satisfaction of the Responsible Authority.

Ground Protection

6. Prior to the commencement of construction the following tree protection conditions apply within the identified Tree Protection Zones for trees being retained no. 2 and the street tree as identified in the arborist report prepared by Adam Hamilton dated January 2018. All tree protection conditions must be undertaken to the satisfaction of the Responsible Authority.

a) No excavation works are permitted for the construction of the driveway.
b) The existing driveway is to be removed by hand with works overseen by a suitably qualified and experienced Arborist.
c) To avoid compaction and damage to the tree trees a layer of organic mulch 200 mm thick must be laid with rumble planks/ crossing planks laid above the mulch prior to any construction vehicles accessing the site. This ground protection is to be maintained until the construction of the new driveway is completed.
d) No fuels, oils, chemicals, poisons, rubbish or other materials harmful to trees are to be disposed of or stored.
e) No storage of equipment, machinery or material is to occur.
f) Open trenching to lay underground services e.g.: drainage, water, gas, etc. must not be used unless approved by the responsible authority to tunnel beneath.

g) A tree protection fence defined by a 1.8 metre high (minimum) temporary fence constructed using steel or timber posts fixed in the ground or to a concrete pad, with the fence’s panels to be constructed of cyclone mesh wire or similar strong metal mesh or netting with a high visibility plastic hazard tape, must be installed at the closest point appropriate to the tree / at the property fence line if the existing property boundary fencing is to be removed. If no fencing can be safety erected than trunk and limb protection must be installed as per the Australian Standard AS 4970-2009 Protection of trees on development sites.

h) If machinery is used to remove existing structures, concrete, bricks or other materials it must be located outside of the defined Tree Protection Zones with ONLY the main arm of the machine reaching into this Zone.

Tree Pruning

7. All tree pruning is to be carried out by a qualified and experienced Arborist who has thorough knowledge of tree physiology and pruning methods. Pruning must be carried out in accordance with Australian Standard AS4373-2007 Pruning of Amenity Trees. Any pruning works required are to be undertaken prior to any construction works beginning on site. Any pruning of trees located on a neighbouring property should be undertaken in consultation with the property owner.

a) Any pruning or removal of tree limbs, particularly hollow-baring tree limbs, must be to the minimum extent necessary.

Tree Protection: Construction

8. Within 9.6 metres of the Tree Protection Zone associated with tree no. 2 Grevillea robusta the following is required to the satisfaction of the Responsible Authority.

a) No excavation works are to be undertaken within the structural root zone of the tree (3.24 m radius of this tree).

b) Accurately survey and stakeout the area of the excavation for the piers and footings;

c) Footings must be selectively placed with consideration for any significant tree roots that may be present within the soil profile.

d) Minor excavation by hand to 0.5 m deep should be undertaken at the points of pier placements to determine if any significant roots are present. Roots greater than 40 mm in diameter are deemed significant. If such roots are encountered the positioning of the piers must be altered to provide at least 0.3 m of clearance from the roots.

e) Any excavation within must be done by hand and in the presence of a Qualified Arborist.

f) Smaller roots can be cut cleanly with a sharp implement in accordance with AS4373-2007.

Deck/Fence Footings

9. Excavation for fence footings must be hand dug and overseen by a suitably qualified and experienced Arborist. Any roots with a diameter greater than 40mm are to be retained and the footing relocated. Small roots to be hand trimmed in accordance with AS4373-2007.
Dwelling 3 – Paved area

10. The paved area must be constructed above the existing soil grade and be of air and water permeable material such as sand based paving, no fine concrete or similar is to be used.

Root sensitive permeable paving such as ‘on-ground’ or ‘no-dig’ paving (or similar) are to be used where any part of the proposed paving comes within a 9.6m radius of the Grevilla robusta sited on the South-east neighbours property.

Landscaping

11. Before the commencement of buildings and works, a landscape plan in accordance with the submitted development plan, prepared by a suitably qualified landscape professional must be submitted to and approved by the Responsible Authority. When approved, the plan will be endorsed and will then form part of the permit. The plan must be drawn to scale with dimensions and three copies must be provided. The plan must show:

a) a survey (including botanical names) of all existing vegetation on the site and those located within three (3) metres of the boundary of the site on adjoining properties, accurately illustrated to represent canopy width and labelled with botanical name, height and whether the tree is proposed to be retained and/or removed;

b) The tree number, T.P.Z., S.R.Z. and notations regarding protection methods during construction of retained trees;

c) buildings on neighbouring properties within three metres of the boundary;

d) the delineation and details of surface finishes of all garden beds, grassed areas, pathways, driveways, retaining walls and other landscape works including areas of cut and fill throughout the development site;

e) a planting schedule of all proposed trees, shrubs and ground covers, including botanical names, common names, pot sizes, size at maturity and quantities of each plant;

f) a range of plant types from ground covers to large shrubs and trees;

g) landscaping and planting within all open areas of the site.

h) adequate planting densities (e.g.: plants with a mature width of 1 metre, planted at 1 metre intervals);

i) the provision of screen planting (minimum mature height of 1.5m) within a landscape strip of 60cm at the interface of the property boundary and driveway

j) A planting theme of a minimum 20% indigenous and 40% native within each plant group;

k) All existing environmental weed species are to be removed from the site and environmental and noxious weeds found in the ‘Sustainable Gardening in Frankston City’ (2015) booklet are not to be planted.

l) the provision of suitable canopy trees (minimum two metres tall when planted) in the areas specified below (trees are not to be sited over easements) with species chosen to be approved by the Responsible Authority;

   (i) Two (2) within the front setback minimum mature height of 10m.

   (ii) One (1) along the southern fence, beside dwelling 3’s garage minimum mature height 5m.
(iii) Further landscaping area as a swale in front of the dwelling 1’s garage along the southern fence line.

(iv) One (1) along the driveway up to the garage of dwelling 4 as an added swale minimum mature height 5m.

(v) the provision of notes on the landscape plan regarding site preparation, including in-ground irrigation system to be provided to all landscaped areas, removal of all weeds, proposed mulch, soil types and thickness, subsoil preparation and any specific maintenance requirements.

(vi) All tree stock used must be in accordance with AS2303-2015

Tree stock for Landscape Use

Prior to Occupation

12. The landscaping as shown on the endorsed landscape plan must be carried out and completed to the satisfaction of the Responsible Authority before the occupation of the development and/or commencement of the use or at such later date as is approved by the Responsible Authority in writing.

The landscaping shown on the endorsed plans must be maintained to the satisfaction of the Responsible Authority, including that any dead, diseased or damaged trees are to be replaced.

Drainage

13. Provision of a Stormwater Detention System with a volume capable of retarding the 10 year ARI flow from the development site back to a 5 year ARI pre-development value to the satisfaction of the Responsible Authority.

14. Prior to commencement of development construction detailed design plans and drainage computations of the internal stormwater drainage system including the method of connection to the existing Council drainage infrastructure are to be submitted and approved to the satisfaction of the Responsible Authority.

15. Water Sensitive Urban Design principles (WSUD) are to be incorporated into the drainage design, which may include but not be limited to the following components or a combination thereof:
   - On-site stormwater detention and rainwater tanks.
   - Soil percolation
   - Stormwater harvesting and Re-use of stormwater for garden watering, toilet flushing, etc
   - On-site ‘bio-treatment’ to reduce dissolved contaminants and suspended solids.

16. Prior to commencement of development construction detailed design plans and drainage computations of the internal stormwater drainage system including the method of connection to the existing Council drainage infrastructure are to be submitted and approved to the satisfaction of the Responsible Authority.

17. Vehicle crossing shall be constructed to Frankston City Council's standards and specifications to the satisfaction of the Responsible Authority.

18. All disused vehicle crossings shall be removed and the area reinstated to kerb and channel and landscaped to the satisfaction of the Responsible Authority.

19. Prior to occupation of the dwellings hereby permitted by this permit starts, areas set aside for parking vehicles, loading bays, access lanes and paths as shown on the endorsed plans must be:
a) Constructed to the satisfaction of the Responsible Authority;
b) Properly formed to such levels that they can be used in accordance with the plans;
c) Surfaced with an all-weather sealcoat; and
d) Drained and maintained to the satisfaction of the Responsible Authority.
e.) Car spaces, access lanes and driveways must be kept available for these purposes at all times.

20. Where the development involves work on or access to Council controlled land including roads, reserves and right of way, the owner, operator and their agents under this permit must at all times take adequate precautions to maintain works to the highest public safety standards, to the satisfaction of the Responsible Authority.

Precautions must include, appropriate signage to AS 1743 Road Works Signing Code of Practice, the provision of adequate barricading of works, including trenches of Service Authorities and any other road openings, sufficient to ensure public safety.

All relevant permits must be obtained from Council for works within the existing road reserves, in addition to the planning permit.

Urban Design

21. All works on or facing the boundaries of adjoining properties must be finished and surface cleaned to a standard that is well presented to neighbouring properties in a manner to the satisfaction of the Responsible Authority.

22. Mailboxes shall be provided to the proposed dwelling/s to the satisfaction of the Responsible Authority and Australia Post.

23. All plumbing work, sewer pipes etc. (except for spouting and stormwater pipes) associated with the new dwelling shall be concealed from general view.

24. Outdoor lighting must be provided, designed, baffled and located to the satisfaction of the Responsible Authority to prevent any adverse effect on neighbouring land.

Department of Health and Human Services

25. Should any cranes and associated construction equipment be used, prior to the commencement of any development (including any demolition or excavation) or by such time as agreed by the Responsible Authority and Department of Health and Human Services in writing, a flight path construction management plan must be prepared to the satisfaction of the Department of Health and Human Services and be approved by the responsible authority. The flight path construction management plan must include measures to minimise the impact of the construction of the building on the safe and unfettered operation of the Frankston Hospital helipad. The management measures incorporated within the plan must be implemented during the construction of the building to the satisfaction of the Department of Health and Human Services and the responsible authority.

The flight path construction management plan must identify the location and height of any construction equipment, including cranes.

26. Any exhaust plumes from the permitted development must not exceed an upward velocity of 4.3 metres per second.
27. Vegetation must be maintained below a maximum of 10 metres above the building ridge line.

**Satisfactorily Completed**

28. Once the development has started it must be continued and completed to the satisfaction of the Responsible Authority.

**Permit Expiry**

29. This permit will expire if one of the following circumstances applies:
   - The development is not started within two years of the date of this permit.
   - The development is not completed within four years of the issued date of this permit.

In accordance with Section 69 of the Planning and Environment Act 1987, an application may be submitted to the Responsible Authority for an extension of the periods referred to in this condition.

**Notes**

A. Any request for an extension of time, or variation/amendment of this permit must be lodged with the relevant fee.

B. Prior to the commencement of construction the operator of this planning permit must obtain a non-refundable Asset Protection Permit from Frankston City Council's Infrastructure Department.

C. Any request for time extension of this Permit shall be lodged with the relevant administration fee at the time the request is made. Pursuant to Section 69 of the Planning and Environment Act 1987 the Responsible Authority may extend the periods referred to if a request is made in writing within the following prescribed timeframes:
   a. Before or within 6 months after the permit expiry date, where the use or development allowed by the permit has not yet started;
   b. Within 12 months after the permit expiry date, where the development allowed by the permit has lawfully started before the permit expires.

If a request is made out of time, the Responsible Authority cannot consider the request and the permit holder will not be able to apply to VCAT for a review of the matter.

11.2 Town Planning Application 430/2005/P/D - 49 and 102/325-335 Nepean Highway
Frankston - To amend the permit by deleting Condition 4 requiring a Section 173
Agreement stating that "any dwelling must not be used as a principal place of
residence"
(MP Community Development)

**Council Decision**

**Moved: Councillor Bolam**  **Seconded: Councillor Cunial**

That Council resolve to issue a Refusal to Grant an Amendment to Planning Permit
number 450/2005/P/A for the Development and use of the land for 110 dwellings and
office(s), reduction in the car parking requirements at Clause 52.05 of the Frankston
Planning Scheme, alteration of access to the Nepean Highway, and waiver of the
requirement for a loading/unloading bay, in accordance with the endorsed plan/s.

**What has been refused?**

The deletion of Condition 4.

**What are the reasons for Refusal?**

1. The proposed amendment to the permit is not in accordance with the intent of
   the permit and the VCAT order dated 24 January 2006.

2. The existing former motel units are not suitable and do not provide adequate
   amenity for permanent occupation by residents. The units were designed for
   and are only suitable for short stay accommodation.

14.3 2018/NOM10 - Federal Advocacy
(MT Chief Executive Office)

Recommendation

1. That Council writes to the Prime Minister of Australia, The Hon. Malcolm Turnbull MP, Opposition Leader The Hon. Bill Shorten MP and Federal Member for Dunkley, Mr Chris Crewther MP expressing concern regarding the Federal government's proposed $2 billion dollar plus cuts to tertiary education, particularly the mooted freeze on funding for the Commonwealth Grants Scheme.

It is anticipated that this freeze will leave over 10,000 student places unfunded. Council notes the implications this could have on post-secondary opportunities for locals, who are seeking to pursue tertiary education but do not have the socio-economic conditions to self-fund their studies; and

2. That clarification is to be sought from the Federal Member for Dunkley Mr Chris Crewther MP about:
   a) On the future of funding for the National Occasional Care Program which it is believed will lapse by July this year. The Council notes that important local child learning centres and neighbourhood houses, such as Karingal Place Community Centre, are dependent upon occasional care funding from the Federal Government;
   b) Clarify how cuts to flexible childcare will impact upon providers within the Frankston Municipality;
   c) Clarify where there may be adverse implications for the Municipality;
   d) Provide options for retaining flexible childcare initiatives in Frankston.

3. That Council writes to the Federal Minister for Human Services, The Hon. Michael Keenan MP, Federal Minister for Health, The Hon. Greg Hunt MP and Federal Member for Dunkley, Mr Chris Crewther MP, Shadow Ministers for Families and Social Services, The Hon. Jenny Macklin MP and Shadow Minister for Health and Medicare, The Hon. Catherine King MP, clarifying Frankston's present and future contribution/s from the $300M National Ice Taskforce funding allotment relating to substance abuse (given the Frankston municipality has higher than average record of drug offences and registered drug users) and seeking their support. The Council is to advocate for increased funding relative to improved rehabilitative outcomes.
